Department of Computer Science

CURRENT CHALLENGES

Problems in Traditional Turf Booking

Manual Calls
Booking via calls and WhatsApp messages.

Slot Confusion
Unclear availability & frequent double-bookings.

Cancellations
Last-minute drops leaving teams incomplete.

No Substitutes
Difficulty discovering nearby substitute players.

Manual Payments
Tedious split-bills & attendance tracking.

Zero Analytics
Turf owners lack revenue & trend reports.

Cancelled Games
Whole matches dropped due to missing players.

Unorganized
Fragmented communication & loose arrangements.

ALL-IN-ONE PLATFORM

Introducing TRUF Solution Flow

1. **Discover & Book Turf**
   Real-time slot availability, instant turf booking, and digital payments.

2. **Match & Substitute Recruitment**
   Create public/private matches, invite friends, and recruit substitute players.

3. **Wallet & Split Payment**
   Seamless wallet management, split transactions, and automated refunds.

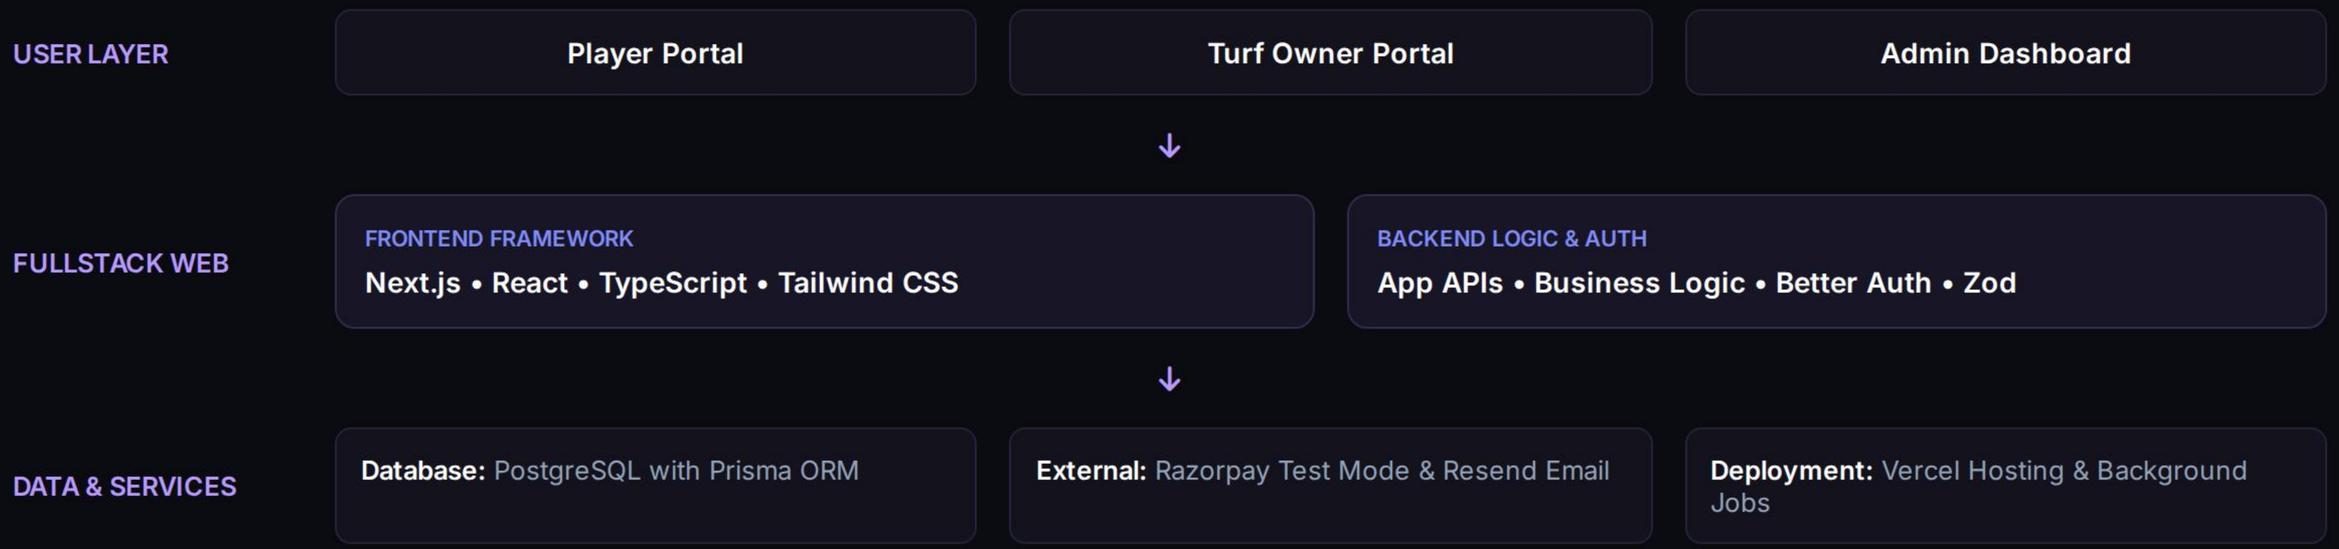

4. **Attendance & Owner Dashboard**
   Attendance tracking for players & revenue/booking analytics for owners.

Core Ecosystem

- Direct Slot Reservation
- Open Community Games
- Automated Split Pay
- Activity & Progress Tracking
- Comprehensive Owner Metrics

TECHNICAL BLUEPRINT

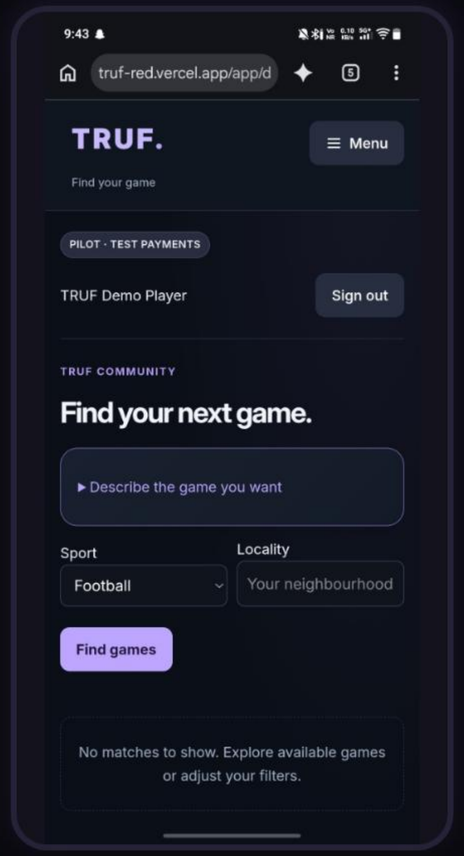

TRUF System Architecture

LIVE INTERFACE DEMONSTRATION

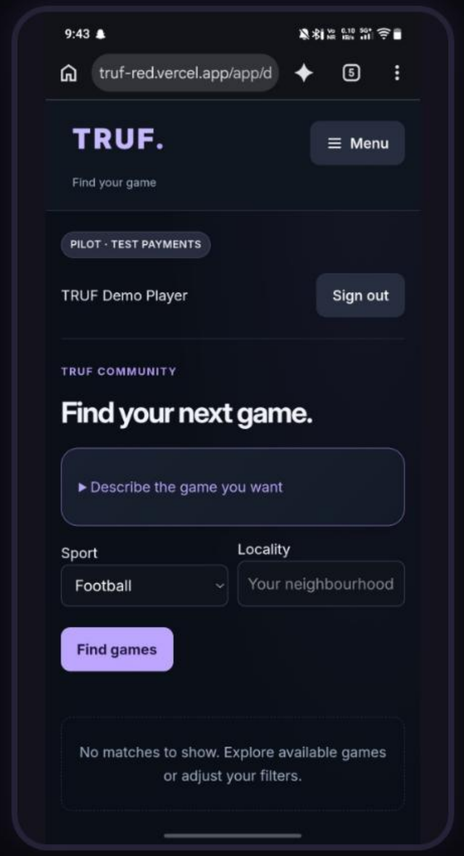

TRUF Player Interface

https://truf-red.vercel.app

Find Your Next Game

Sport selection, locality filters, and intuitive match search.

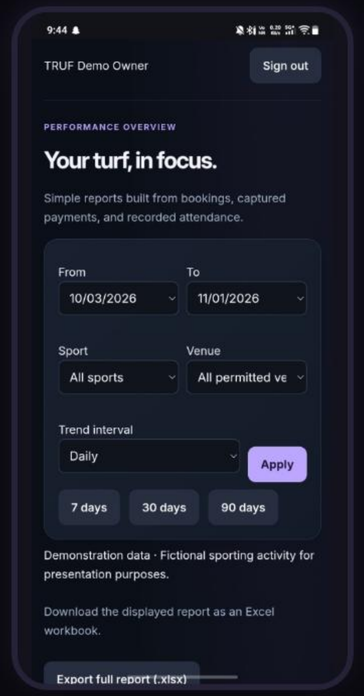

TRUF Player Home

Account header, navigation drawer, and active game discovery.

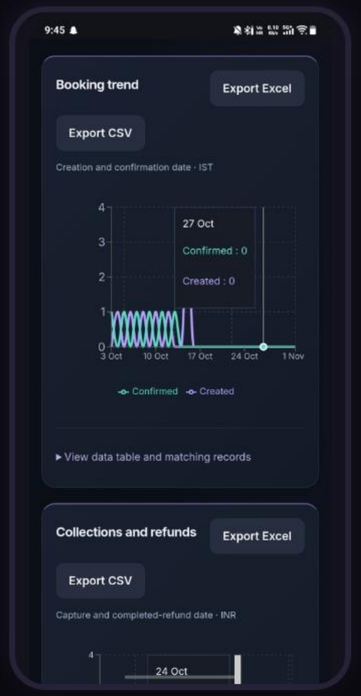

OWNER ANALYTICS INTERFACE

Turf Owner Dashboard & Analytics

Performance Overview

Date filters & venue controls.

Booking Trend

Tracks bookings over time.

Collections & Refunds

Monitors financial flows.

Venue Performance

Status breakdown & reports.

USER ECOSYSTEM

Designed for the Sports Community

Players

Discover games, book slots, and join neighborhood matches.

Sports Groups

Organize matches with friends, split costs, and manage rosters.

Solo Players

Find available games and join as substitute players.

Turf Owners

Manage venues, slots, performance, and revenue analytics.

Admins

Platform operations, user moderation, and payment oversight.

FEATURE OVERVIEW

Complete Sports Booking Ecosystem

Player Platform

Match Creation: Public & private games

Turf Booking: Instant slot reservation

Substitutes: Player discovery pool

Wallet: Transaction history & splits

Turf Owner Portal

Venue Management: Custom slot pricing
